PINK ELEPHANT UNICORN 5

July 13-14, 2018 | Richland, WA

CYBER SECURITY EVENT FOR ALL SKILL LEVELS

The Pink Elephant Unicorn (PEUx5.0) capture-the-flag competition is returning to Richland on July 13 and 14, 2018. Sure to be both fun and engaging, this event is for anyone interested in learning more about cyber security, regardless of skill or experience level. Prior to and during the competition, PNNL Cyber professionals will teach tutorials for beginners – see registration page for details

3 REASONS TO CAPTURE THE FLAG

▶ **Develop new skills**. By solving cyber challenge puzzles and working from clue to clue, you will learn what makes a computer system vulnerable, how attackers infiltrate complex networks, and how to defend these systems.

▶ **Collaborate and exchange knowledge**. As part of a team, you will work to capture the cyber flag, sharing knowledge as you work and learn with your teammates. Teams will be formed on site to balance novice with experienced players.

▶ **Have fun**. Make new friends and have a blast! Try new tools, consult with subject matter experts, and navigate through challenging and stimulating cyber obstacles.

Frequently Asked Questions

Q: Is there a registration fee?
A: No, the event is free.

Q: Do I need to bring a computer?
A: Yes, please bring a laptop. If that's not possible, you can also pair up with others.

Q: I am not able to stay for the entire time. Can I come and go as needed?
A: Certainly, we realize that some people may have scheduling conflicts.

Q: Will there be staff available to help a beginner like me?
A: Absolutely!

PEUx5.0 is made possible by a collaboration between Pacific Northwest National Laboratory's Cyber Security Research & Operations groups.
